

Contract Conclusion Certificate Document

The contract certificate is a legally effective certificate proving that the contract of "eb823c3887a3445a86f59e38d711c0a2_contract_표준근로계약서.pdf" has been completed. The certificate is issued as an NFT and officially acknowledges that the contract between the contractors has been concluded. A contract is a stand-alone document that cannot be forged or tampered with. Since the contract has been proved between the parties, the contracting parties are deemed to have acknowledged the fact of the contract. The certificate is a contract certificate officially issued by the MSCP service.
